Angel
(C.Hillman/D.Foxworthy)

Angel flying so high
What are you trying to find
Angel, can't find you tonight
Burn like a fire in the sky
Leave me freezing I succeeded
I know the reason you left me in a hurry
'cause you said hey his love can't wait

Angel you never were told
Love is a state of mind
Angel when heaven comes
You'll be the first in line

Deep in meaning my heart's feeling
Where love is leading, there is no end in sight
and I believe it's all right to call you
Angel, angel
What kind of trouble did you leave behind
Angel, angel
