Summer Wind
(Steve Hill/Chris Hillman)

Anxious eyes wait by the window
She waits she hears the wind blow
Taking all she has that she knows
It's a cold summer wind

No it's not the first time
Her heart feels like the last time
A never ending bad rhyme
Like a cold summer wind

Can't you see what I've been thru
All I've done, I've done for you
Can't you see your world won't end
It's just a summer wind

Daddy's once a week girl
The only one in my world
Dry your eyes and comb your sweet curls
I'll be coming back again

Yeah, your mom and I we both know
Everyday you live we all grow
Only God can make the wind blow
Like a warm summer wind

Can't you see what I've been thru
All I've done I've done for you
Can't you see your world won't end
It's just a summer wind

I know you want us back together
I know what we've put you through
When you hear the wind blow
It'll bring us close to you

Can't you see what I've been thru
All I've done I've done for you
Can't you see your world won't end
It's just a summer wind

Can't you see what I've been thru
All I've done I've done for you

Can't you see what I've been thru
All I've done I've done for you

Can't you see your world won't end
It's just a summer wind
